

GENERAL FEATURES

- Type	37ft Contemporary Classic Day Sailor
- Naval Architect	Hoek Design Naval Architects BV, Edam, Holland
- Builder	Cantiere Roma, Italy
- Construction type	Advanced composite
- Length over deck	11.30 m 37' 0"
- Length W.L.	8.50 m 27' 11"
- Beam O.A.	2.60 m 8' 6"
- Draught keel	2.20 m 7' 3" (optional 1.80m / 5' 6", 2.60m / 9' 0")
- Displacement	2,600 kg 5,720 lbs
- Ballast	1,150 kg 2,535 lbs
- Keel type	Removable fin keel with bulb
- Rudder type	Balanced spade rudder
- Rig	Fractional sloop with slab reef mainsail, and self tacking jib
- I measurement	12.40 m 40' 8"
- J measurement	4.90 m 16' 0"
- P measurement	12.80 m 42' 0"
- E measurement	4.85 m 15' 11"
- Total length mast section	14.70 m approx 48' 3"
- Fresh Water	60 l 16 US gal
- Fuel	30 l 8 US gal
- Steering system	Tiller steering
- Main engine:	Volvo D1-13 (11.8HP) with Direct Drive transmission and a Gori folding propeller
- Power battery	36V, Lithium Ion batteries (TBC)
- Electrical system	12V DC
- Service battery	12V 65 Ah
- Battery charger	220V AC - 12V DC
- Winches	Harken
- Mast and boom	Keel stepped carbon fiber (Hall Spars Carbon fiber)
- Standing rigging	Rod rigging Navtec
- Jib furler	Manual line furler Karver

DESCRIPTION AND STANDARD EQUIPMENT

HULL

Carbon/glass/epoxy laminate with PVC foam core, for a light, strong and stiff hull. Structural bulkheads in sandwich construction. Materials are Lloyd's Register approved. Hull fitted with watertight compartments fore and aft. Hull and interiors painted with Awlgrip paint.

DECK AND COCKPIT

Deck overlaid with 50x6mm teak planking, swept to follow the gunwale with margin boards and king planks fitted in teak.

Special storage areas dedicated for life raft, tools, gear and fender stowage. Fresh water supplied with an electric pump from a 60 liters nylon tank under cockpit.

Teak covered sliding hatch in cabin roof. Cabin glazing in polycarbonate and glass

INTERNAL STRUCTURE AND FINISHING

All furniture made of sandwich GRP components, bonded and filleted to the hull.

Interiors are Awlgrip Golden Gray Metallic painted with visible satin clear coated carbon on floor and structural reinforced areas.

RUDDER AND KEEL

Rudder is a carbon-epoxy blade on a solid carbon stock. The stock rotates in self aligning JP3 roller bearings with extremely low friction.

The keel has a T-geometry with the ballast bulb on a high aspect ratio blade for maximum righting moment.

Keel is easily detachable for transportation.

As an option, the boat can be lifted at a single point placed on keel head.

SPARS AND RIGGING

The yacht has a Hall Spars twin spreader rig, tapered above the hounds. Mast, boom and bowsprit are manufactured in carbon fiber and clear coat finished. All standing rigging is in rod rigging. All halyards are pre-stretched dynema running internally in mast. Reefing lines, backstay adjustment and other control lines are led aft under deck to cockpit controls. The carbon fiber bowsprit can be extended to set the gennaker or a Code Zero (both optional).

DECK GEAR

All deck gear, mostly located under deck, is manufactured by Harken, Spinlock and Karver.

Mainsheet, jibsheet, backstay and vang are controlled by a hydraulic "Magic Trim" and hydraulic rams systems with controls close to helm. Harken curved track for self-tacking jib is recessed on deck in front of the mast.

Flagpole socket recessed in aft deck. Four pop-up mooring cleats. Manual Harken 48.2 self-tailing winches. Spinlock stopper battery.

PROPULSION

Engine: Volvo D1-13 (11.8HP), Direct Drive transmission and Gori two blades folding propeller. Engine control panel close to helm with audible alarms. Spinlock removable single lever control close to helm.

NAVIGATION

Two maxi displays installed on the mast, speed, depth, wind and electronic compass (B&G or Tacktik to be decided).

Flush deck mounted magnetic compass.

ELECTRICAL

Batteries are fitted with isolator switches. Electrical panel in salon fitted with individually fused switches. An electric bilge pump is fitted in the cockpit. A tri-colour Lopolight LED navigation light is fitted at the masthead. Four LED lights in the cabin.

PLUMBING

Large capacity manual bilge pumps fitted in the cockpit according to CE directive requirements. Toilet fitted under a salon seat. Black water tank.

MISCELLANEOUS

Refrigerator
2x5m and 2x8m mooring lines.
Anchor with anchor line
Fenders (4)
Manual fire extinguisher (1)
Bunk mattresses (4)
Flag pole

CERTIFICATION

CE category B (inshore and coastal waters)

VESSEL PRICE (INCLUDES ONLY STANDARD EQUIPMENT AND FEATURES)

Model
Wallynano

OPTIONAL EQUIPMENT

Description
Hull pastel color other than standard "Matterhorn White"
Hull metallic color
Carbon look clearcoated hull
Stainless steel bathing ladder
Carbon fibre flag pole
Set of Gennaker/Code 0 blocks and sheets
Set of cockpit cushions lined with Sunbrella fabric
Set of terrycloth covers for cockpit cushions
Set of waterproof covers for cockpit cushions
Top cover
Mainsail cover
Lazy jack mounted
Lazy bag + Lazy jack mainsail system mounted
Autopilot mounted
GPS Furuno or Raymarine mounted
Awning large
Awning small
Anchor System (including anchor, chain, rope, windlass) mounted on bow
Low draft m 1.80 keel
Deep draft m 2,60 keel
Adjustable cradle
Center lift arrangement complete
Stereo iBoat System with four splashproof loudspeaker
iPod Nano (different colours)
Nespresso Coffee Machine mounted
Launching and commissioning in Cap d'Ail, France
Sails by North Sails Full Carbon 3DL
Mainsail
Jib # 1
Gennaker
Jib # 2
Code 0 Dimension
Furler for Code 0
